

PROSPECTUS OF BANKERS' HOTEL FOR OAKLAND

Commercially, Oakland is now a city of 250,000 inhabitants; is one of the chief centers of travel and commerce of the Pacific Coast, being situated nearly midway between Los Angeles and Portland, Oregon, and is enjoying an unexpected growth in population and business. But the lack of adequate hotel accommodations is now causing serious inconvenience, and threatens to retard the development of the city. The necessity for a modern hotel of the highest class has long been recognized. It has now become imperative, for everything in the shape of a hotel or lodging-house is overcrowded, while the restaurants are overwhelmed with custom. There is an increasing demand for the accommodation of the traveling public. We have no hotel of the class essential in a city of the size, importance and favorable location of Oakland.

Modern Hotel Is Good Investment

A thoroughly equipped modern hotel is not only a public necessity, but an attractive investment of capital. Inviting the co-operation of merchants and property owners of the city, who are united in desiring the erection of such a hotel. One of the first class is sure of a large and profitable business the moment its doors are opened. To remedy a condition that is injuring the city's prestige and turning travel away, the representative banks of Oakland, in response to a universal demand, have associated themselves in launching a hotel enterprise financially.

Block Bought For the Hotel Site

After a careful consideration, the block bounded by Thirteenth, Fourteenth, Harrison and Alice streets, was selected as the most desirable in the city for the purpose. The lowest price for which the property could be bought was \$25,000. Judging from the enhancement in values of adjacent property, the site will, as soon as the hotel is built, be worth from \$50,000 to \$60,000.

In addition to subscribing for the entire bond issue of \$750,000, the individual members of the Clearing House Associated Banks will be subscribers for the stock. An opportunity will also be given to citizens generally to cooperate in this enterprise, and participate in the profitable returns it promises.

The amount of capital stock will be \$2,250,000.

Preferred stock, 7500 shares at \$100 per share, \$750,000. Common stock,

15,000 shares at \$100 per share, \$1,500,000.

It is estimated that a hotel commensurate with the needs of the city can be built and furnished for \$1,050,000. The cost of the site was \$25,000, making a total of \$1,075,000. While it will be the aim of the directors to keep within this limit, provision has been made for an additional \$25,000 in case of necessity. These funds will be provided by sale of bonds, \$750,000. Sale of preferred stock, \$750,000.

What the Stock Will Pay

The common stock will go with the preferred stock in proportion of two to one; that is, a subscription of \$10,000 gets \$10,000 in preferred stock and \$20,000 in common stock. The preferred, when fully paid, will be 7 per cent cumulative stock. On December 1, 1908, 10 per cent of the amount of each subscription will be payable, and thereafter payments of 10 per cent will be called for at intervals of sixty days. The common stock will not participate in dividends until the preferred stock has received 7 per cent, nor will it receive over 2½ per cent during any one year until the bonded debt has been paid. Judging from the experience of the best hotels in the United States the preferred stock will pay 7 per cent and the common stock 2½ per cent as soon as the hotel is fairly under way, besides the large surplus toward paying off the bonded debt.

Bonds Will Run Thirty Years

The bonds will run thirty years with privilege of redemption at 103 after five years. A sinking fund or not less than \$20,000 is provided for, to begin in 1913, or earlier if warranted by the earnings. In addition any surplus after paying 7 per cent cumulative on the preferred and 2½ per cent on the common stock will be reserved for the sinking fund until the debt is extinguished, after which all surplus goes to the holders of the common stock.

With a view of keeping the control of the hotel out of the hands of speculators or others who might prove unsatisfactory to the shareholders who subscribed for stock at the beginning of the enterprise, the common stock will be placed in the hands of trustees and the voting power vested until 1914 in said trustees, composed of one representative from each of the nine Associated Banks, comprising the Oakland Clearing House Association.

Inducement For Investors

The very large earnings of all the leading hotels in the United States, together with the increased value of the hotel site, offer an inducement to investors which should cause the stock to be largely over-subscribed. In which case subscribers will only receive their pro rata of the whole amount of stock subscribed for up to the time subscriptions are called in and declared closed.

* The directors for the first year are:

D. E. COLLINS,

Subscription lists will be found at each bank in the City of Oakland on and after October 10, 1906.

John D. Jr. Aids in Fighting Fire

NEW YORK, Oct. 1.—The gasoline tank on one of the lawn mowers on John D. Rockefeller's estate at **Fairfield Hills** exploded yesterday and completely destroyed it, setting fire to a house on the place and burning it. Engineer Stanley was badly cut on the head. The explosion and fire caused excitement on the Rockefeller estate, and John D. Jr. and his wife rushed to the scene. They directed the firemen in their work of preventing the fire from approaching the large stables.

Whether or not any of the five men who conveyed him home were implicated is not known, but it is believed that they merely picked him up on the street. He was unconscious when he arrived at the house, and spoke no words to any of the occupants.

Business Men Now in Honolulu

HONOLULU, Oct. 1.—The party of prominent business men, representing Chambers of Commerce in half a dozen Pacific Coast cities, arrived today on the steamer **Tenyo Maru**, en route for Japan. They were greeted outside the harbor by a delegation from the commercial bodies of the Hawaiian islands. During their stay the visitors will be entertained extensively.

PEOPLE'S WATER COMPANY OFFERS TO WITHDRAW FROM RICHMOND

Replies to Curt Letter of Town Trustees by Stating That It Is Willing to Discontinue Business There.

POINT RICHMOND, Oct. 1.—Two town trustees of Point Richmond wired to People's Water Company out of business in Richmond by filing suit to deprive the company of its franchise. President Titus had replied as follows:

"Mr. J. Taylor,
City Clerk of the City of Richmond,
Point Richmond, Cal.
My Dear Sir: Relying to your letter of August 18, which is as follows:

"Herewith find copy of petition of the citizens of Richmond which the Board of Trustees at their meeting last evening passed to request you to withdraw from business in furnishing the citizens of Richmond, as per your contract, proceedings will be commenced in the Superior Court to declare your franchise forfeited."

"We beg to say that we have not answered your letter for the reason that it contained such a revolutionary suggestion that we desired to have time to fully consider the matter before taking any step.

READY TO WITHDRAW.

"Having fully considered the same we desire to say that if the Board of Trustees of the city of Richmond really mean what is contained in your letter and will apply to us to withdraw our franchise to discontinue business in the city of Richmond, we shall comply with such request and it will be entirely unnecessary for you to commence new proceedings to have our franchise forfeited."

NO FRANCHISE.

"First let me say that we are a not operating the city of Richmond under any franchise, but are operating under the constitution of the State of California which gives every individual and water company the right to lay water pipes and do business in any municipality in this State. This, however, is beside the point for the reason that this company does not desire to continue in business in any municipality where the people of that municipality do not wish it to continue."

If your Board of Trustees will review the history of the water business in the city of Richmond and will consider for a moment how inferior the service is at the present time than it was a few years ago, we believe that it will recognize the fact that the water company has been one of the main instruments in causing the upbuilding of the city of Richmond.

MANY IMPROVEMENTS MADE.

When we purchased the old plant and commenced business in 1901, there was nothing in your city which was equal to it to be called a water system. We have expended large sums of money in increasing mains and the sewerage system and this large expenditure has been made without ever receiving a adequate return however, been content to do this in the belief that the city of Richmond will, in future, be fair in its dealing with the water company and that as the other towns do, we will, some day, be compensated with its franchise.

WE DISCONTINUE BUSINESS.

The Boar of Trustees will find that we have not been able to make any profit on the water business in the city of Richmond, but for domestic and fire purposes, are not appreciated and it is considered that we are as solvent in our duty to the citizens of Richmond as to receive a letter dictated by the board of trustees of such a radical nature as yours of August 18th, then it is manifest that we will be much more satisfactory to us to entirely discontinue business by your city.

We do not wish you or our member of the Board of Trustees or any citizen of the city of Richmond to misunderstand this letter. We do not desire to discontinue business in the city of Richmond, but if it is the desire of the city of Richmond that we discontinue in business, then we shall comply with such desire.

WANT PEASANT RELATIONS.

Our relations with other municipalities which we supply with water, are of the pleasantest and we do not desire to do business with any municipality and be in constant trouble and quarrels over our business; neither do we desire to do business with any municipality which thinks it necessary to threaten us with litigation in order to compel us to do our duty. You it has been our task to supply the city of Richmond with water and we are trying so rapidly that large amounts of capital are constantly made and must constantly be made, to keep up with the growth of the town, and we have never taken one penny out of the city of Richmond; every dollar that we have received from the sale of water, together with many more dollars given over one so received, has been invested in the improvement of the plant in the city of Richmond. HAVE SPENT \$200,000.

"Since the purchase of the Richmond Water Company's property our net receipts from the city of Richmond have been \$25,813.55. During the same time we have expended \$275,122.14 in improving the water supply and increasing the plant for the city of Richmond. This plant is the only plant in the city of Richmond. This plant is an splendid supply of water, both for domestic and fire purposes, and is considerably more than ample for the needs of your citizens. This money has been expended by us, during the financial difficulties through which we have all gone for the purpose of providing a better service for your citizens, without considering any immediate returns, but having faith in the growth and upbuilding of your city and the safety of lawfulness and justice which a peasant's life is. I do not believe that any locality can show a better supply of water for fire purposes, both as to quantity and pressure, than can the city of Richmond at the present time. If the sentiment expressed in your letter is fairly indicative of the sentiment of the citizens of Richmond, then it is manifest that it would be worse than foolish on our part to continue to invest capital in a community which does not wish such investment to be made.

REMEDY FOR TROUBLE.

Referring particularly to the lack of water in the places mentioned, we beg to say this lack of water has occurred only in houses of high elevation in your city. Such lack of water will probably continue to occur from time to time, owing to the exigencies of the business. It is physickally impossible for us to keep the reservoir full of water at all times owing to the fact that we cannot tell at what time heavy draft will be made on the water in such reservoirs. If the people who live upon those high elevations would put in small tanks they would have no more trouble with the water supply, and this is the only way that the matter can be remedied.

WILL DO THEIR BEST.

We shall do our best in the future as in the past to supply every citizen of the city of Richmond with water, but if at times there is a shortage in some places, as there undoubtedly will be, we do not expect to be threatened with lawsuits by the city of Richmond on this account. We hope that you will understand this better in the spirit in which it is made. We are ready, at any time, to go into any trouble with the city of Richmond and we will not have it if there is any way consistent with justice to do so. This is not intended as a threat in any manner, but the time has come when we should have a plain understanding with

ROOSEVELT LOOKS INTO CAMPAIGN MANAGEMENT

Chairman Hitchcock to Visit the President in Washington

WASHINGTON, Oct. 1.—It was learned here that President Roosevelt had sent a confidential friend to New York to look into the workings of the national Republican headquarters there.

Some dissatisfaction is said to have arisen regarding the conduct of the campaign and reports have reached the President to the effect that the national committee has not been working in harmony with the Republican Congressional committee.

Hitchcock of the national committee is expected in Washington to have a conference with the President. It is believed that the President sent for Hitchcock to come to the White House for the purpose of explaining to him why the two committees are not working well together.

In some circles it is felt that the members of the party resent the way in which the younger men at national headquarters are running the campaign and claim that considerable dis-

This was the result in Los Angeles and San Francisco. Such are the results here in Oakland. How well Fer-Don has kept his word! You all know that the day has been declared to be the day of the walk, and the incoming and outgoing have been delayed before the very eyes of thousands, and many citizens can verify the facts. As Fer-Don told a newspaper reporter: "I've got an organization of European medical experts who are not from people living miles away, but right here in your own midst. Now is the time of the walk."

BLOODLESS SURGERY performed on Mr. Walter Roberts living at 17 South Second street, San Jose, who has been troubled with stomach and liver trouble caused from gall stones which kept him from health. SEATTLE, Oct. 1.—While running at good speed, just off from the steamer *Petrelus*, Victoria of the Canadian Pacific crashed into the gasoline steamer *Victoria* this morning off Norwegian Point, about eleven miles north of Seattle. Holding the schooner by her stern, the *Victoria* backed her and sent the crew to the steamer *Dade*. The *Victoria* was uninjured and proceeded to Victoria and Vancouver.

BABY IN TERROR.

The baby screamed in terror and called for its mother. Mrs. Wolff, hearing the cry and divining what had occurred, ran in pursuit of the buggy, and though Wolff whipped up his horse, he could not catch up and snatched the child from it when near the corner of East Fourteenth street.

Then the fight for possession of the child commenced. The husband snatched the baby and the mother fought frantically to regain it, and a crowd was quickly collected, but hesitated to interfere, as the father protested that he was legally entitled to the custody of the child.

HASKELL TELLS ROOSEVELT HE WON'T STAND FOR BLUFF

Appeals for Coin to Fight His Battle

GUTHRIE, Okla., Oct. 1.—Governor C. N. Haskell yesterday wrote an abusive letter to President Roosevelt and also addressed an appeal to the people of Oklahoma, pleading with them to stay with him and donate in his behalf private purse. He claims to be a poor man fighting everything wealthy and powerful that is basing Hearst and Roosevelt, and then makes his plan for money as follows:

"I want to be frank with every honest man in Oklahoma as I am that frankness is proper for me to say that I not only want your moral support but some material financial assistance to pay the expenses of this great contest. I ask for your assistance, but in a large amount."

"I lay aside my appeal for just as you for the reason that you can conceive that no matter how intelligent you are, no one will offer it. The present case so far as I can see clearly demonstrates the fact that the occupant of this office may be without fairness, but let me assure you that the letter to the President follows in part:

"Mr. Roosevelt, I have said that you were responsible for the granting of the franchise to the Standard Oil & Gas Company before Statehood, thereby creating vested rights in the company. I agree with Mr. Roosevelt that the franchise is not shareable.

"My own opinion is that the franchise would not be granted again if you had the same bill, but S. 1, in Committee. The constitution of Oklahoma was the best ever written. I need not say that I agree with Mr. Roosevelt that the franchise is not shareable.

Reports From Metal Trades
Are That Conditions Will
Improve After Election.

NEW YORK, Oct. 1.—Reports of the highest authority from the steel and iron trades today are to the effect that no improvement of any magnitude can be expected until after November 5. Practically all of the mills to be under subject to cancellation are in operation and the impression has been made that such suspension will be canceled in case of Bryan's election.

Judge Gary chairman of the board of directors of the United States Steel Corporation denied the Pittsburgh press that the company had 100,000 men working without justification to 90,000 men now in assisting the Royal Blue camp claim. He says:

"There is no foundation for the statement that any number of men have been put to work for political effect. From time to time in the last six months additional men have gone to work because the natural and legitimate demands of business required it and when the Republican nominee is elected we confidently expect the number of our men at work will be materially increased."

Both the Iron Age and the Iron Trade Review say that producers and consumers of iron and steel are awaiting the outcome of the election. It is generally considered that with the producers increase the output of consumers make large unconditional orders.

HEARST AGAIN ATTACKS FORAKER AND HASKELL IN DENVER SPEECH

WILLIAM RANDOLPH HEARST.

Produces Other Letters and Documents Tending to Show
Connections With the Trusts.

TENNESSE, Oct. 1.—William R. Hearst last night disclosed another letter revealing the connection of Senator Joseph B. Foraker with the Standard Oil Company. In it he showed that Foraker had recently received \$10,000 from John D. Archbold.

Both of these letters were written to Foraker in 1909 and contain certain coded post office marks on the Standard Oil Company envelope. Mr. Hearst stated that he had come across the letters in holding the White House collection to find certain documents which Foraker had failed to establish his income.

The letters which I found, said Mr. Hearst, do not prove his income but they do show that Foraker's life service to the Standard Oil Company.

Mr. Hearst paid his respects to Charles E. Bessemer, president of the Standard Oil Company, whom he met at the Society of Friends meeting in Muskogee, which he attended to fight for the union labor movement. He was promoted by committee to the Standard Oil Company.

--- did you start savings account today?

THURSDAY EVENING, OCTOBER 1, 1908.

have one young man who comes in here nearly every day leaving a dollar or two dollars at a time. He says if he tries to accumulate \$8 or \$10 that he spends it. His account has grown in one year from one dollar to nearly \$300 and is now earning a dollar a month in interest. He has invested his interest in a life insurance policy for \$1000, and tells us that he is going to increase it each year as his interest grows.

If you haven't started your account, don't you think you'd better do so tomorrow? Your action in this matter of money saving may mark the difference between success and failure.

Our no successful investors are those who deposit small amounts frequently. Who can tell?

The Lucky Key?

Mr. Peter Christensen, 483 Seventh St., Oakland, Cal., was the owner of the August Lucky Key that opened the Safe containing One Hundred Dollars—the money and safe are his.

Another Safe containing One Hundred Dollars will be given to the owner of the Lucky Key this month. You receive a key with every box of one dozen quarts or two dozen pints of Wieland's Beer purchased in San Francisco, Oakland or Alameda.

If any one of the keys you receive with a box of John Wieland's Beer will unlock that drawer it's the Lucky Key—One Hundred Dollars is yours and the safe too!

Ask for Wieland's when ordering beer—get the Lucky Key, the safe and the one hundred dollars.

Write your name and address on the tags attached to keys—deposit your key or keys on or before noon, Friday, October 30th, 1908, at Savoy Shoe Store, 1016 Washington St., Oakland, (where the safe is now on exhibition), on which date the safe drawer will be opened.

If you have the Lucky Key, the money and safe will be sent to your address—or if you attend the opening and own the Lucky Key the money and safe is yours; you can dispose of it as you wish.

Keys returned later than the time and date stated will not be applied to the lock and will be discarded.

Drink Wieland's Beer

Every method known to the science and art of brewing has been employed to perfect Wieland's Beer.

Sparkling with life, snap and zest, Wieland's Beer is the key to health, invigorating—possessing quality resulting from the careful selection of hardy barley, perfect hops, combined with master brewers' skill to brew for discriminating tastes.

Perfect for the table—the ideal home beer.

Brewery's Own Bottling

Order a box of Wieland's Beer to-day—from your grocer. Costs you no more than other beers. **Get the Lucky Key!** You cannot buy a key—they are given free with your order.

NOTICE.—Each month a safe containing one hundred dollars will be given away. It is important that you deposit your key or keys on time and at the place stated, as you may have the Lucky Key—the safe and money must go to its rightful owner. In the event of the Lucky Key not being returned, the safe and money will be given over to charity.

Michael Casey's Downfall.

The effort of Mayor Taylor (acting as a deputy for Rudolph Spreckels) to do reform politics with the old Ruef-Schmitz push has resulted in failure and a rush of bad blood to the surface. Michael Casey has been deposed as boss of the Board of Public Works and the yellow jacket and peacock feather of authority handed over to Tom Egan, late of Abe Ruef's political cabinet. Casey is still President of the Board of Public Works, but he is a Samson shorn of his locks. He is powerless to prevent the summary dismissal of his relatives and political henchmen from the public service.

Casey is suffering the penalty for failure to deliver the goods. He was given a free hand in the street department with the distinct understanding that he was to place Rudolph Spreckels in control of the Union Labor party. He was permitted to ride rough-shod over the charter in carrying out his program. He did street repairing when, where and how he pleased, always with an eye to the political results he was commissioned to achieve. He bounced old employees right and left to make room for his retainers, and stuffed the payroll with political workingmen, who were reformers for revenue only. So long as he appeared to be gaining his end the Mayor smiled sweetly on him and the Supervisors were notified to let Casey alone.

But the Union Labor party rejected Spreckels as boss, and the convention of that organization repudiated the program prepared for it. Casey was allowed to deceive himself and his patron up to the last minute, and then the delegates asserted themselves. It was a great shock to Spreckels and the Mayor. Isador Jacobs was almost stunned by the news. As soon as the stricken ones managed to get their breath, they set up the cry, "Down with Casey."

So Casey is being put in the coal cellar as a warning to others of his class. He ruthlessly violated the charter to stuff the payroll with his followers. The charter is being as ruthlessly violated now to get rid of them. Reform is going backward as illegally as it sought to go forward, the new driver being a graduate from the Buckley and Ruef schools of political purity, who has followed the bread wagon into the Spreckels camp.

Casey is out and Egan is in. Great is reform. "I could tell things about your record," snarls Casey to Egan.

"My record is as good as yours," says the new pie-man. Let us hope they will tell what they know about each other. But they won't.

Taft and Foraker.

The Sacramento Union argues at length to prove that Judge Taft is not responsible for the acts of Senator Foraker. It is quite unnecessary to make the contention. It is a self-evident proposition. Taft and Foraker have led opposing factions, dominated by radically antagonistic ideas and influences, in Ohio, and their respective attitudes in regard to measures to control the trusts and regulate railway traffic are diametrically opposed. Taft has stood with the President and Foraker has stood against him. In Ohio Taft made the fight for Roosevelt policies and won over Foraker's opposition. Upon no theory can he be held to account for what Foraker does or has done, since he repudiated all suggestion of compromise with the Ohio Senator more than a year ago. Politically, there is nothing in common between Taft and Foraker. They stand for different ideas and policies, and represent influences and tendencies in irreconcileable conflict with each other. Every person with any sort of intelligence knows this to be true. It is not necessary to argue a case to which there is no negative. Foraker's connection with the Standard Oil Company is a concrete illustration of the irreconcilable difference between him and Judge Taft. It represents something in public life that Judge Taft is unalterably opposed to and which he is now fighting to put down. It represents the difference in moral perception as well as the difference in political attitude. It indicates how wide apart the moral standards of the two men are, how different are their conceptions of public duty and official propriety. What ground is there for assuming that Taft would condone much less hold himself accountable for practices and a line of conduct to which he is arrayed in open and outspoken opposition?

Insane Hospital Reforms Needed.

The world moves. An evidence that it does is furnished by the interest manifested in the movement to reform the vicious system of handling the inmates of the hospitals for the insane. It required incessant effort for a generation to get the Legislature to provide for the segregation of the criminal insane. Up to this time the criminal insane have been shifted back and forth between hospitals and the prisons, the authorities of both institutions trying to rid themselves of the incubus of caring for such patients under existing conditions. As soon as the special ward now in course of construction at Folsom is completed, lunatic criminals will be confined and treated apart from sane prisoners and insane patients who are not criminals.

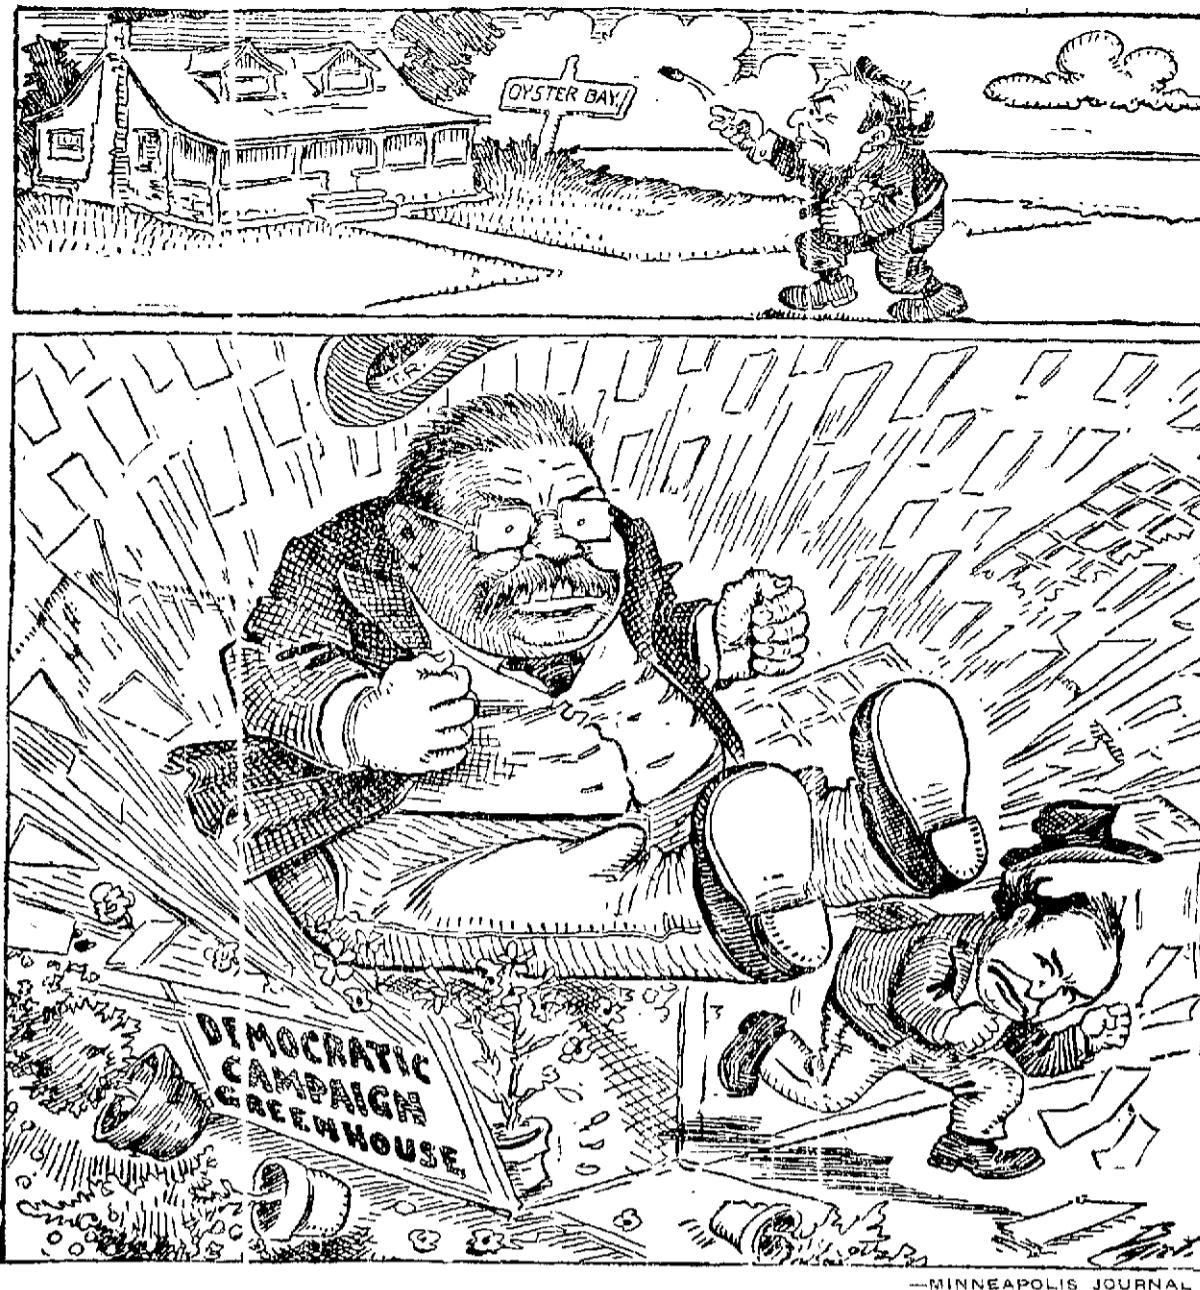

A radical change in the present methods of housing and treating the insane is next in order. The hospitals are over-crowded and suffer from the evils of the congregate system. Over-crowding and the intimate association of disordered minds tend to vicious practices and render futile efforts to cure mental disorders. The way the poor creatures are huddled together in the insane hospitals of California is shocking and shameful. It is not the fault of the hospital officials, however, for they do the best they can, and realize keenly the evils of the system under which they are operating, and the need for radical reforms that will afford better opportunities for restoring diseased minds to a condition of normal sanity.

"A person might as well be hanged as sent to the Napa hospital in its present over-crowded state," said a distinguished expert. Possibly he exaggerated a little, but he is not far from the truth. Existing conditions are bad, very bad, and wisdom and humanity both demand the application of a remedy. Tentative measures of amelioration are of no permanent value. The congregate system must be modified so as to permit classification and segregation, that curative processes may be given free play. The evil of over-crowding should be abated by the next Legislature, no matter at what cost. This State is abundantly able to properly care for its insane.

A manufacturer man not a thousand miles from here has prominently displayed a large card bearing his legend, "Patronize Home Industry." That man has all his printing done in Chicago because he can get it done a little cheaper there. But his advice to others is "patronize home industry." There are many like him, men who have one rule for themselves and another for their neighbors.

The news that 150,000 colored men in Texas intend to vote for Bryan is not disquieting. We were never sanguine that Taft would carry Texas. Anyway, the colored voters of Texas might as well vote for Bryan as to have their votes counted for him.

"PEOPLE WHO LIVE IN GLASS HOUSES SHOULD NOT THROW STONES."

**Puzzled by Sporting Slang.**

Editor TRIBUNE: What does your sporting editor mean by saying a certain prize fighter got soaked in the slats? Can't he state intelligibly what occurred?

ANXIOUS INQUIRER

(It was what happened to Foraker, dear friend. Don't try to reform the speech of the sporting editor. He would be unable to write anything if he had to state it in the English language, and his constituency understands his argot perfectly. If you ever got swatted in the mush you fully understand the meaning of the term — Editor TRIBUNE.)

The Sacramento Bee needs to be reminded that the Republican candidate for Vice-President is named James Sherman. He is known as "Sunny Jim" in Utica, his home city, which is not a bad recommendation from a man's neighbors.

The Methodists are after Uncle Joe Cannon with a sharp stick. Their hostile demonstrations are likely to make the old man run faster. We'll wager a red apple to a rotten peanut that Uncle Joe wins out by a big majority.

McLaurin didn't bat Tillman, so it's fair to conclude that Standard Oil failed to come through with the "generous support" he requested of John D. Archbold.

You may have failed to register, but there is still time to invest in Oakland real estate. A certain profit will tend to console you for the loss of your vote.

Since Bryan insists upon talking about himself, the President refuses to continue the epistolary controversy. Roosevelt desires to discuss a live issue.

Haskell and Foraker have their griefs, but for real woe let us refer you to the judges of a beauty contest.

Senator Gore says he sees signs of a Bryan victory wherever he goes. Senator Gore is blind.

If Roosevelt takes the stump Bryan had better take to the woods.

SOCIETY GIRL MAKES DEBUT. Miss Emma E. Hudson Zucker, well known in exclusive social circles, recently joined the ranks of a local opera company. Miss Zucker is a dainty little miss with a voice exceeding charm and sweetness which has been greatly enjoyed by her many friends. She is wonderfully versatile, her dialect recitation being one of her many accomplishments. For two weeks she appeared in San Francisco at the American Theater and last Monday evening made her debut at Idora Park in the California Girl.

At the recent State fair held in Sacramento, Miss Zucker was awarded gold medal and two prizes for her display of burnt wort. Her friends predict that she will make a great success as an ingenue.

ENJOYABLE EASTERN TRIP. Miss Mary Waddell has returned within the month from a delightful trip to the Eastern coast which has lasted about fifteen months. During her absence she has visited friends and relatives in Atlantic City, New York, Philadelphia and Washington. All points of especial interest were visited while she was away. One trip was made to historical Mount Vernon, and the stop at Washington was unusually interesting. But all the pleasant sights and delightful visiting, Miss Waddell returns home the true Californian that she always was, saying that her native State contains the combined arms of all the other states. On her return, Miss Waddell has been the inspiration for many pleasant affairs.

KINDERGARTEN FESTE. The ladies having charge of the arrangements for the kindergarten fete to be given at Idora Park on Saturday, October 3 report that everything is progressing well and will eclipse all previous affairs. The baby show which will be the new feature upon this occasion, is attracting much attention and will be eight prizes given which will be on exhibition during Saturday afternoon at the Park. NEW YORK Oct. 1.—Lieutenant Swan U. S. N. R. recently appointed by the Secretary of the Navy to investigate the practicability of the aeroplane in naval warfare in New York to consult with A. M. Herzing an aeroplane expert.

Lieutenant Swan said he government requirements for the aeroplane to be used in the navy are far more difficult to meet than those of the army. The machine must be able to stay in the air four hours and maintain an average speed of forty miles an hour and should be able to travel a distance of 200 miles if necessary. It must also be able to start from the water.

FOR SCOUTING PURPOSES.

The aeroline would be for scouting purposes.

To equip our ships with the plane would be to incur an efficiency loss of 200 per cent and the expense of each ship being cut down would be 20 per cent.

Suppose each ship being cut down would be equipped with three aeroplanes and one sent out forty miles to the port and one forty miles to the port while the third went to some distant point. So what great fun shaped aerial trips of the kind could cover and how will a chance of any surprise by an opposing fleet?

MRS. MARTIN WATCHES JURORS

ACCUSED WOMAN IS HELPING COUNSEL

Watches Every Man Who Goes Into Jury Box to Be Examined and Gives Her Lawyers Advice.

JURORS CHALLENGED.
Mrs. Martin's attorneys, A. L. Frick and B. J. Wyman, exercised four peremptory challenges out of the ten allowed them by law. Mrs. Martin held whispered conversations with them before the peremptory challenges were made, and it was largely at her suggestion that W. W. Walton and S. Hansen were not permitted to act as jurors to try her.

Every man who goes into the jury box to be examined as to his qualifications to act as a juror is closely scrutinized by Mrs. Martin, who does not permit a man to escape her. The other two peremptorily challenged were J. D. Norris and C. F. Banta.

The prosecution made no peremptory challenges.

FRIEND OF JUDGE.
R. H. Bonner, a rancher of Niles, who was being examined, said that he was a close personal friend of Judge Ogden, who often visited him at Niles. Though not technically disqualified because of this close acquaintance with one of the principal witnesses, Frick asked Assistant District Attorney Hynes, who is conducting the prosecution, to consent to the excusing of Bonner. Hynes consented. J. G. Menzies was excused today by Judge Wells because of illness.

Eight more names were drawn from the jury box today and their owners are now being examined. They are A. W. Schaffer, F. A. Peixotto, A. S. Machado, A. F. Babb, H. B. Green, C. P. Lowry, F. C. Wilton and Joseph Hibernia.

were drawn from the big box to secure the six who have been permanently passed for the trial, and the additional fifty called today makes 542 who have up to this time appeared in court.

Fifty Jurors Are Called by Venire

(Special to The Tribune.)
SAN FRANCISCO. Oct. 1.—Fifty jurors, who have been summoned on a special venire in the trial of Abraham bribery matter, appeared in Judge Lawlor's court this morning to answer preliminary questions as to their qualifications. All of the talesmen were served in person, all save three responding to the sheriff's call, and those absent were again summoned by telephone. Almost the entire morning was consumed in their examination.

CASEY'S HENCHMEN DECAPITATED BY TAYLOR ADMINISTRATION

Penalty Inflicted Because Leader Could Not Control Labor Votes

(Special to The Tribune.)
SAN FRANCISCO, Oct. 1.—The Board of Public Works at its meeting yesterday dispensed with the services of twenty-one employees and appointed others in their places. The men discharged were appointees of Michael Casey, president of the Board, and their appointment was permitted by the administration when it was thought that Casey could control the workmen's vote. The action yesterday showed that the administration desired to have something to say in the matter and the changes were accordingly made against the protest and the request for delay on the part of Casey. The votes by which the sweeping changes were made were those of the other two members of the board, namely Egan and Day.

BESTIALITY GOES.
The first of the victims of the guillotine was John Egan, who is a brother-in-law of Casey, and who held the position of superintendent of street cleaning.

The next victim was M. J. Kerrigan, district foreman of the street cleaners. Kerrigan's place was given to William Rogerson, who formerly held the place and Kerrigan's position went to Peter Kelley. Rogerson's recommendation was that he was a supporter of the present administration.

TEAMSTERS LEFT OUT.
Following the decapitation of these men came that of nineteen teamsters and the appointment of nineteen others to take their places. The names of all of the discharged teamsters are mentioned. Some of those who were driving for the San Francisco Teamming Company and two employed by the West Coast Teamming Company. The others were David Dillon, J. Maher, James Carroll, Sam Rainforth, William Coates, P. Carroll, Jerry Carroll, P. McGoldrich, Harvey Akers, August Harders and C. A. Clancy.

THE SUCCESSFULS.
The resolution of decapitation also provided for the disengagement of four teamsters for the benefit of the department owned by C. A. Harvey, two by the Daniel O'Day Company, five by the Shibley Grading and Teamming Company, five by the Cartwright Drayline Company and one each belonging to J. Goodman, Harry Beasley, David Evans and F. O'Shea, while Joseph Engleberg was engaged to furnish the department with a supply wagon.

Casey ANGRY.
Casey wished the resolution, which was introduced by Day, held over and this desire led to a lively dispute.

"When I took office this last time," said Casey. "Major Taylor stated that he would hold me personally responsible for the efficiency of the department. If these plans for changes in the department are to be carried through I wish to see

HE DIDN'T KNOW GUN WAS LOADED

Starts to Snap Revolver at
Sister and Sends Bullet
Through Her Brain.

NEW YORK, Oct. 1.—Mrs. Rosella Borgman, 32 years old, was shot and killed last night in her home at Corona, Long Island, by her brother, William Kattes, 28 years old, who is attached to the schoolship Newport. He says the shooting was accidental. He is under arrest.

Mrs. Borgman threatened to commit suicide. Kattes says that when his sister kept repeating that she would kill herself he displayed his revolver and offered it to her. She did not take it. He said he supposed it was unloaded and began snapping the hammer preparatory to going further with his offer. The revolver contained one good cartridge. Mrs. Borgman was shot through the brain.

**INDICTED IN EDITION
DE LUXE SWINDLE**

CHICAGO, Oct. 1.—The grand jury yesterday returned two indictments, naming five persons in connection with the edition de luxe swindle of which Mrs. James A. Patterson of Evanston was the victim.

Those named in the indictments are: John M. McFarland, who was arrested two weeks ago in Toronto, Can.; William N. Cooper, Sam Farfield, Albert Miller Adams and Sam Eisenfeld.

Had a Close Call.

**EDISON'S LATEST
INVENTION**

Mrs. Ade L. Coom, the widely known proprietor of the Crown Hotel, Vaughn Miss., says: "For several months I suffered with a severe cough, and construction required me to lay up on my bed when a friend recommended Dr. King's New Discovery. I began taking it, and three bottles effected a complete cure." The family of this life-saving cough and cold remedy, and one thousand boxes in world-wide sales, all in drug stores, 50c and \$1.00. Trial bottle free.

Excuse on to Usian.

The Northern term Pacific Railroad Company will have a mid-summer excursion to Utkal on Sunday, October 13th. It is a most beautiful ride at this time of the year through the different valleys and along the Russian River, and the excursionists will be entertained with a picnic luncheon at the Utkal Inn. A ticket sold insures a seat and there is only a limited number. Excursionists will have four hours and a half in Utkal, during which three visits can be made to Victoria Springs, the famous Utkal Asylum. The leaving time from Tiburon Ferry, foot of Market street, is 8:30 a.m., and the return from Utkal is 12:30 p.m. The fare for the round trip is \$1.00, and each passenger will be given \$2.50 and tickets will be on sale at Ferry.

NEW MOVEMENT IS TO BE DISCUSSED

Rev. Dr. Shields Will Talk at
St. Paul's Church on
Three Nights.

The Emmanuel Church movement for healing the sick by mental suggestion and Christian agencies is at the present time much in public mind. The movement was inaugurated about two years ago in Boston in Emmanuel Church, by the Rev. Drs. Worcester and Macomb, together with accredited physicians and surgeons. It is a system of religious therapeutics. It employs the best scientific knowledge and skill, believing that God is no less powerful than any physical or spiritual methods of relieving disease. It distinguishes between organic and structural disease and nervous and functional disorders.

It welcomes scientific tests and has therefore won the sympathy of and commendation of eminent scientists. And it recognizes and lays emphasis upon the pathology of the New Testament that man possesses a mind and a body.

TO RESTORE POWERS.

It aims at restoring the curative powers which have never been entirely absent from the ministry of Christ and His church in any age. This movement has no irrationality about it that has so far been detected, though it has been investigated and thoroughly tested by the keenest minds.

The famous psychologists, Professor James of Harvard and Dr. Barker, the eminent neurologist of Johns Hopkins University, have given it their approval. Dr. Putnam, the skilled neurologist, has sent many patients to the Emmanuel Clinic. Worcester uses it as the treatment of preference of the Massachusetts General Hospital, who has gone on record, saying, "I have examined the complete records of every case handled by Dr. Worcester and his associates and can say that they have accomplished a good deal of good and no harm whatever."

NOT INCONSISTENT.

"Dr. Macomb said humbly to all, 'We welcome criticism, and invite every scientific and religious test. We have no desire to carry on this work an hour longer than its worth will warrant. Patients and critics have declared that the movement as carried on at Emmanuel Church is not unnatural or moral or religious inconsistency.'

It recognises the reality and actuality of God's universe of things as they are and seeks hand in hand with medical science, to which the world of pain and disease owes so much, to alleviate human suffering. But it observes the true proportion of things and does not propose to change the church of prayer and sacraments and worship into a hospital for the body. It is also to drive out fear, depression, worry, thuddiness, from the mind. It assures the afflicted of the love of God, and the presence of God. It addresses itself to the whole man which, through the incarnation of the eternal Logos, has been made partaker of the divine nature."

Rev. Mr. Shields has been associated with the movement of the Emmanuel Church. His lectures at Berkeley were listened to by thoughtful people who crowded the parish house to its utmost capacity.

Mr. Shields will lecture upon the principles, methods and results of the movement at St. Paul's Church, corner of Twenty-third and Webster streets, on the evenings of Monday, Tuesday and Wednesday, October 6, 7 and 8 p.m.

SELLS HEAD FOR USE OF SCIENCE FOR \$10,000

AMHERST, Mass., Oct. 1.—A story is told at Amherst College by the students that Professor John Mason Tyler, professor of biology at Amherst and son of America's greatest Greek scholar, has sold his head for use after death for \$10,000. Professor Tyler smiles blandly and says nothing. He says that in his student days he did make an agreement with an old Australian professor, but no money consideration was involved.

Rumor, Goodwin was told, has persisted in explaining his determination to obtain a divorce from Miss Elliott by hinting that the veteran actor was anxious to marry Miss Elena Goodrich, the former Florida girl and his leading lady, the disruption of whose engagement to Harry MacMillan, the Goldfield mining man, was said to have been accomplished by a trick evolved by the ingenious comedian.

Goodwin said he had been a resident of Reno for eighteen months and that the clause in the statute books regarding time of residence before a divorce complaint could be filed did not affect him. He is due in New York on October 20 to begin rehearsals on a new play written for him. He declined to say whether he would attempt to hurry the court proceedings at Reno, so that he might begin the theatrical season a single man.

**California Will Play
Two Games Saturday**

Two Rugby games are scheduled for the University of California teams next Saturday. The game will be in the nature of a double-overtime, one game following the other, and but one admission being charged to buy both contests. The first game will be between the freshmen and the fifteen from the San Jose High School. The San Jose boys have a good team, and should give the first year team a rub for the victory. This game will commence at 2:30 p.m.

The second game will be between the Varsity and the Olympics. Two weeks ago the Varsity succeeded in defeating the club players, and the following week the Stanford Varsity defeated the game and said team will endeavor to defeat the Olympians by a larger score than the Stanford team made a week ago. On the other hand, the Olympics are confident of making a better showing against the Varsity than they did two weeks ago. The game promises to be interesting and closely contested. The Varsity-Olympic match will be played directly after the Freshmen-San Jose game.

**Jack Jackson Ball Nine
Wins Both Games Handily**

The crack Jacksons of Oakland won two easy victories Sunday, defeating the Olympic Arms and Knights of Columbus teams on St. Mary's grounds.

The first game, with the Olympics, stopped in the fifth, the Jacksons leading 3 to 1 in the Jacksons' favor.

Christie, pitcher of the Jacksons, completely baffled his opponents, fanning eleven in four innings.

In the second game, the Jacksons, warmly towed with their opponents, winning by the score of 13 to 5. The Jacksons have recently been strengthened by the addition of Broderick of the crack Santa Clara team, and Lewis, Anthony, and Meyers of the I. C. team, and now present a very formidable team up.

They have a few open dates, while they would like to play with Modesto, Newman, and others on Polar Richardson.

Address challenges to Joe Lacey, 1808 Thirteenth Avenue, Oakland.

**Palo Alto High School
Boys Win From Babes**

STANFORD UNIVERSITY, Oct. 1.

The Palo Alto rugby team administered a sound defeat to the Stanford Freshmen here yesterday afternoon. The score was only 9 to 6, but the young colts were routed at every stage of the game.

With the exception of Ebb, the crack scrum half, and the occasional playing of Partridge in the scrum, the 1912 men went down to a beating without a single spark of brilliant play to offset the ball. The high school lads were on the ball all the time and in the few minutes of play, Partridge, a forward, crossed the cardinal touch line. Several times later Palo Alto was close to increasing its lead.

The game was not brilliant and the players of the first year men are discouraging to the undergirded hounds. It was believed that the 1912 team had a chance to defeat the blue and gold "babies" October 17, but they played more poorly today than in any previous game.

Saved His Boy's Life.

"My three year old boy was badly constipated, had a high fever and was in an awful condition. I gave him two doses of Foley's Ointment, Laxative, the next morning the fever was gone and he was well again. Foley's Ointment, Laxative saved his life." A. W. Walker, Castine, Wis. **California Will Play
Two Games Saturday**

Two Rugby games are scheduled for the University of California teams next Saturday. The game will be in the nature of a double-head, one team going following the other, and but one admission being charged to both contests. The first game will be between the freshmen and older boys from the San Jose High School. The San Jose boys have a good team, and should give the first year athletes a rub for the victory. This game will commence at 2:30 p.m.

The second game will be between the Varsity and the Olympics. Two weeks ago the Varsity succeeded in defeating the club players, and now, following week the Stanford Varsity defeated the gold team, will endeavor to do what the eleven can't do, a larger score than the Stanford team made a week ago. On the other hand, the Olympics are confident of making a better showing against the Varsity than they did two weeks ago. The game promises to be interesting and closely contested. The Varsity-Olympic match will be played directly after the Freshmen-San Jose game.

**Painters Win Game From
The Fast Hammit Nine**

With Royce in the box, the Painters gave the Hammit baseball team a hard rub September 27, at their Adeline Park meet, defeating the Hammits by score of 14 to 6.

The Hammits lost their goat, which went with the tide, so the boys on his side, the Painters, never helpless, were on the bush all through the game to the finish and the above score was the result, making ten games out of 16 won by the Hammits.

Bunting honors were carried off by Smith and R. Collins.

The line-up was as follows:

Painters—Royce, pitcher; Touhey, catcher; Smith, first base; Philbrick, second base; Collins, third base; Dominic, shortstop; Collins, right field; Fibers, center field; Woods, left field.

Hammits—Martin, pitcher; Gullford, catcher; O'Connor, first base; Touhey, second base; Royce, third base; Touhey, shortstop; Cook, right field; O'Neals, center field; Riddle, left field.

F. J. Siblee of 72A, Twenty-fourth Street, Oakland, manager for the Painters' team, would like to make arrangements for games with good fast teams, some country games preferred. Open dates October 11, 18, 25.

Jack Jackson Ball Nine Wins Both Games Handily

The crack Jacksons of Oakland won two easy victories Sunday, defeating the Olympic Arms and Knights of Columbus teams on St. Mary's grounds.

The first game, with the Olympics, stopped in the fifth, the game then readied in 3 to 1. With Jacksons' favorite Christie, pitcher of the Jacksons, completely behind his opponent, fanning eleven in four innings.

In the second game the Jacksons merely toyed with their opponents, winning by the score of 13 to 5. The Jacksons have recently been strengthened by the addition of Broderick of the crack Santa Clara team, and Lewis, Anthony and Meyers of the U. C. team, and now present a very fast dash line up.

They have a few open dates which they would like to fill in with Modesto, Fresno, Merced or John Richland.

Address challenges to Joe Lacey, 1803 Thirteenth Avenue, Oakland.

Palo Alto High School Boys Win From Babes

STANFORD UNIVERSITY Oct. 1.—The Palo Alto rugby team administered a sound defeat to the Stanford Freshmen here yesterday afternoon. The score was only 3 to 0, but the young collegians were routed at every stage of the game.

With the exception of Erb, the crack serum half, and the occasional playmaking of Partridge in the scrum, the Babes went down to a heap without a single spark of brilliant play to offset it.

The high school lads were on the ball all day and in the first five minutes of play Babo, a forward, crossed the cardinal touch line. Several times later the game was not brilliant and the show of the first year men is discouraging to the undergraduates. It was learned that the 1012 team had a chance to defeat the blue and gold "babes" October 17, but they played more poorly today than in any previous game.

Saved His Boy's Life.

"My three year old boy was badly constipated, had a high fever and was in an awful condition. I took him to two dozen doctors. The fever was gone and he was entirely well. Foley's Clinic, Laxative saved his life." A. Wolfish, Cashier, Wig. Bldg. by all druggists.

Bay Cities League Is
to Open Up Saturday

SAN FRANCISCO, Oct. 1.—The school committee of the Bay Cities Baseball League met yesterday afternoon at the office of the Pacific Coast League in Recreation Park and began work on the schedule for the amateur ball players.

The drawings for the first games were made. According to these, opening Saturday will witness a double header at Recreation Park, the United Railroads playing the Transportation Club, and the Imperials the Wiley B. Allens. On the same day the Calkins will meet the Bushells at Freeman's Park, Oakland.

On Sunday the Gardner-Matthers will play the Sullivan Stars and the Imperials the Transportation Club in San Francisco, while the United Railroads will cross bats with the Tribunes at Freeman's Park, and Wiley B. Allens meet the Golden Shears on the Dwight Way grounds in Berkeley.

The arbitration committee, composed of Jack Gleason, J. Cal. Irving and Judge Hunt of the advisory board, met yesterday to decide on the eligibility of the players on the lists submitted by the various managers. While no official report has yet been made, it is understood that no one has been disqualified, all being found satisfactory in accordance with the rules of the league.

**Major Delmar Shows Form
and Beats Crack Pacer**

BROCKTON, Oct. 1.—Major Delmar, the world famous trotter, showed his old time form by defeating Sweet Maris in two straight heats over the half mile track at the Fair Grounds here yesterday afternoon. The race was stepped off in the first time of 2:15, and the second in 3:4 of a second slower. The race was for a purse of \$3750.

SINGERS AT IDORA DELIGHT THE LOVERS OF SWEET MUSIC

"The Bohemian Girl" Is Drawing Large Houses

Those who enjoy melodious music, particularly when it breathes a story of romance and adventure and is accompanied by pretty voices, will find the costumes and surroundings most pleasant this week at the Idora Park theater, where the Perse-Mason Opera Company is presenting that tuneful operetta, "The Bohemian Girl." That lovers of song are taking advantage of the opportunity of finding them is evidenced by the well-filled houses at Idora each night.

Catchy tunes and fitting costumes give the presentation the popularity it has attained. When Edith Mason, vivacious and sweet-sungled, a usual singer, "I Dreamt That I Dwelt in Marble Halls," the audience listens eagerly and

high he was repeatedly called back by his appreciative audience.

The chorus is composed of pretty girls, the costumes are brilliant and attractive,

of the gypsies, is turned loose in a

chimney before his mother's before this in the boudoir are hilarious. He gets mixed up with a cologne bottle and a powder puff and finally ends up by becoming attached to an alarm clock, with which he makes his exit.

STORY WELL KNOWN.

The story of "The Bohemian Girl" is well known to most theatregoers.

tells of the kidnapping of a daughter by gypsies when she is but a child twelve years old. She is held by the wanderers for many years and is finally returned to her father. While a member of the gypsy band she becomes enamored of one of their members, her father, after restored to her objects to her the wanderer. She is persistent, however, and finally wins her parent's consent to the marriage.

The cast is as follows:

Count Arthelm, governor of Idoraburg, described as Charles Swickard Thaddeus J. Polo, Thomas H. Persse, Florence Nixon, Robert Lett, captain of the guards, J. G. P. Moore, Arthur, daughter of the count, Miss Judith Mason, Bodie, her attendant, Mabel Gorti, queen of the Gypsies, Bernice Holmes.

ATTACKS CHARACTER OF WOMAN; GETS 6 MONTHS

Your own words have determined the severity of your sentence. If there was any doubt in my mind about the case before, it has now disappeared. Any man who will purposely blacken the character of a woman to save himself deserves the full penalty of the law, so I sentence you to six months in the City Prison."

Such was the statement made by Police Judge Smith this morning in the case of Arthur Sweeney, charged with the theft of a trunk and sewing machine from a woman named Lorraine Albin. He attempted to excuse his act by attacking the young woman's character, and declared that she had supported him by leading an immoral life.

gives vent to encore after encore. In the "Bohemian Girl" Edith Mason makes her first appearance in the second act and renders the above named song. In the same act Thomas H. Persse sings "The Heart Bow'd Down," and last night the audience was not satisfied until he had rendered it several times.

OLD SONGS MADE NEW

The finale of this act is "Hold! Hold!" a familiar song old but made new again by the singers at Idora.

"When Other Lips" and her of the songs which has been singing old is rendered by Persse in the last act and last
